

Whiskey

Steriogram

Its so damn beautiful tonight
i stand and marvel at the site
i cant decide which one to do
there's one of me and two of you

don't let me go to waste
don't remember just erase
we're a time bomb ticking away

pour the whisky into the glass
bottoms up bottoms why do we start
it's the same old story time and again
alcohol is not my friend

not feeling wonderful today
woke up in a bus stop by my place
on the hunt for pills to numb the ache
those last few drinks was a mistake

get right back on that horse
still drinking, no remorse
I didn't know that sister was yours

pour the whisky into the glass
bottoms up bottoms why do we start
it's the same old story time and again
alcohol is not my friend
