Come On Rain

Steve Holy

Come on rain, pour on down
Flood that runway, shut it down
She's in Dallas, waiting on a plane
Don't let her leave, come on rain

Unleash your fury, fill the sky
Let your clouds explode, go on and cry
Your tears of mercy, give me time

Unlock your winds and let 'em blow
Let your lightning strike, your thunder roll
Heaven help me stop that plane, come on rain

Don't let your storm clouds break
Like my heart if I'm too late
One hour is all I'm asking for
Come on rain, let it pour

Unleash your fury, fill the sky
Let your clouds explode, go on and cry
Your tears of mercy, give me time

Unlock your winds and let 'em blow
Let your lightning strike, your thunder roll
Heaven help me stop that plane, come on rain

Now here you come
You heard my prayer
Give it all you've got
She's all I've got and I'm almost there

Unleash your fury, fill the sky
Let your clouds explode, go on and cry
Your tears of mercy, give me time

Unlock your winds and let 'em blow
Let your lightning strike, your thunder roll
Heaven help me stop that plane, come on rain
Heaven help me stop that plane, come on rain
Come on rain, come on rain, come on rain
