

# Just A Kiss

Steve Holy

At the end of the night  
Captured in the moonlight  
You gave what you insist  
Was just a kiss

But my lips said otherwise  
And to my heart's surprise  
That moment of total bliss  
Was more than just a kiss

Because just a kiss can't make my heart ache  
Just a kiss can't make me fall  
Just a kiss can't make my whole world shake  
But your kiss did it all

I don't pretend to know love's mysteries  
But baby, I know this  
When you touched your lips to mine  
It was more than just a kiss

I felt my feet leave the ground  
I heard my walls come down  
There was no chance to resist  
It was more than just a kiss

Because just a kiss can't make my heart ache  
Just a kiss can't make me fall  
Just a kiss can't make my whole world shake  
But your kiss did it all

I don't pretend to know love's mysteries  
But baby, I know this  
When you touched your lips to mine  
It was more than just a kiss

It was a flood, it was a fire, it was a walk on a wire  
It was that moment in time  
I'll never chase from my mind  
It was more than just a kiss

Because just a kiss can't make my heart ache  
Just a kiss can't make me fall  
Just a kiss can't make my whole world shake  
But your kiss did it all

I don't pretend to know love's mysteries  
But baby, I know this  
When you touched your lips to mine  
It was more than just a kiss

Just a kiss, just a kiss, just a kiss
