

# Darkness In My World

Steve Lukather

Don't forgive me when I'm gone  
Please forgive me if I was wrong  
Find the strenght to carry on  
Don't forgive me when I'm gone

Woke up this morning  
With an emptiness inside my heart  
That never dies

No one seems to care at all  
10,000 miles away, tears in my eyes

As I fall on the broken glass  
Of my hopes and my dreams  
And the truth starts to unfurl  
There's a darkness in my world  
There's a darkness in my world

52 it sure came fast  
Decades seems to pass,

I'm looking deep inside myself  
Wonder what my life is worth  
I question every move I make  
My mortal sins, and life itself

As I question the how's and why's  
Could we be near the end  
I'm praying for differeal  
There's the darkness in my world

There's a darkness in my world

Don't forgive me when I'm gone

I won't my life is worth  
There's a darkness in my world  
There's a darkness in my world
