How Many Zeros

Steve Lukather

They try to walk on water Thats a waste of time From the ivory tower They cant take my vibe

Rich man sees a heaven He tries to keep from me No one knows forever No one rides for free

Its a big loud life Its a heavy price But the greed is your disease At the gates of hell Go and ask yourself What it means?

How many zeros? do you need?

Ate up with the sickness

Drowning in the luxury Taking in the glory til your hour of need

Burning with the hunger That cant be satisfied Aching from addiction til the day you die? til you die

Its a big loud life Its a heavy price Greed has got you on your knees At the gates of hell Go and ask yourself What it means?

How many zeros? do you need?
