Rock Love

Steve Miller Band

Do do do do doot
Do do do do doot
Do do do do doot
You got to have rock love
To weather the storm
It's got to be rock love
To help you carry on

When the winds of temptation move your soul
Stay with me now, don't you let it go
I told you so

Rock love will weather the storm
You got to have rock love to hear your song
It's got to be rock love, yeah
To make you strong

When everybody puts you down
The rock of love will be around
It's solid ground

Rock love will weather the storm
Rock love, yeah, will help you carry on
Sweet Jesus will see you through
Your trials, tribulations too

No matter how far you go
Still I will love you so
I told you so

Rock love will weather the storm
Yeah
