

Hard Not to Love It

Steve Moakler

We've been putting in the time rubbing nickels and dimes
Adding up what we're saving
New tires on the truck, little coffee in your cup
What you wanna name the baby
Just a couple dreamers from a home team
We're hoping they can pull it through
Always like the underdog, don't we, honey?
'Cause it's kinda like me and you

It ain't always roses coming up outta the ground
We didn't always get it right, get it right
But now and then we get it right, get it right
If it wasn't for heartbreak we wouldn't have a story now
But it's working out alright, alright
Life ain't always easy but it's hard not to love it right now
Right now, hard not to love it right now

Every now and then it all comes together
And work comes back to life
Sitting in the grass
And you ain't even worried if it's greener on the other side
I know right where we been, to the bottom and back again
You make a real good lover and a damn good friend
I said it once and I'll say it again
You make a real good lover and a damn good friend

It ain't always roses coming up outta the ground
We didn't always get it right, get it right
But now and then we get it right, get it right
If it wasn't for heartbreak we wouldn't have a story now
But it's working out alright, alright
Life ain't always easy but it's hard not to love it right now
Right now, hard not to love it right now

Yeah, right now I got you in my arms
I don't know what I did but I played my cards
Right now I wouldn't change a thing
If the honey ain't sweet then the bee don't sting
Count off the band, baby, 1, 2, 3

It ain't always roses coming up outta the ground
We didn't always get it right, get it right
But now and then we get it right, get it right
If it wasn't for heartbreak we wouldn't have a story now
But it's working out alright, alright
Life ain't always easy but it's hard not to love it right now
Right now, hard not to love it right now

Just a couple dreamers from a home team
We're hoping they can pull it through
Right now
