

# Summer Without Her

Steve Moakler

If you see that girl with the headband on  
Long hair, blonde and wavy  
I have a tattoo hiding from you  
Just enough to drive you crazy  
You'll know when you see her, I know for sure  
She's the covergirl gypsy on the shore  
With the umbrella in her drink  
Could you tell her one thing?

That it ain't summer without her  
No, the sun ain't as gold as the memories I hold  
So I've been thinking about her  
Could you tell her I still want her?  
Yeah, it just ain't summer without her

When I smell Patron and coppertone  
It takes me right there with her  
And this salt in my glass stings so bad  
In my heart right where I miss her  
Sun sets pretty like it was before  
But without her on my shoulder  
It's just a bunch of colors making me wish  
That I could hold her

Summer without her  
No, the sun ain't as gold as the memories I hold  
So I've been thinking about her  
Could you tell her I still want her?  
Yeah, it just ain't summer

Still got her flip flops in the back of my trunk  
In case she ever comes to get 'em, isn't that dumb?  
Been wastin' my days catchin' sun rays  
Hopin' by September I won't remember

It ain't summer without her  
No, the sun ain't as gold as the memories I hold  
So I've been thinking about her  
Could you tell her I still want her?  
Man, it's just a bummer  
It ain't summer without her  
No, the sun ain't as gold as the memories I hold  
So I've been thinking about her  
Could you tell her I still want her?  
Yeah, it just ain't summer without her  
Summer without her  
If you see that girl  
If you see that girl  
Yeah, summer without her  
Just enough to drive you crazy
