## **Crash Course In The Blues**

## **Steve Wariner**

To a boy from Indiana
Fresh off the farm
L.A. looks like heaven
With its ever open arms

My mama said to watch yourself Like mamas always do Daddy said, "Those city girls Will walk all over you"

So I hit the pavement
Running down on Hollywood and Vine
I got to town by seven
And I fell in love by nine

She was a California angel Wearing alligator shoes She had that something That a poor boy can't refuse

She was incredible, she was A crash course in the blues

Now we're screaming down the freeway In this fancy foreign car Headed for another party Never seen so many stars

Just when I thought, I'd make my move And ask her to be mine She takes off with somebody else And kisses me goodbye

She was incredible, she was A crash course in the blues

Well, she was way too hard to handle For a country boy like me She's still a Roman candle Burning in my memory

She was unbelievable, she was A crash course in the blues She was incredible, she was A crash course in the blues, that's right
