

Cry No More

Steve Wariner

I know he was cruel to you, he kept you down
He never heard the voice inside you never heard the sound
Of angels singing you know they are around
They look just like you their tears fall to the ground

So smile it's behind you now
And in time in time
You won't cry no more
You won't cry no more

Livin' in the shadows baby, let me in
If you let his memory hold you back you let him win
Shackles on your soul are rusty waiting for release
All I want to do is love you give you peace

So smile it's behind you now
And in time in time
You won't cry no more
You won't cry no more

All I want to do is love you and give you peace
So smile it's behind you now and in time in time
You won't cry no more
So smile it's behind you now and in time in time

You won't cry no more
You won't cry no more
You won't cry no more
