

# Girl Like You

Steve Wariner

I like the way you walk  
And the way you swing those hips  
It kills me when I hear you talk  
Those sweet words rollin' off your lips

All those lonely boys in the alley  
Thinkin' they got half a chance  
There's not a lot they wouldn't do for you baby  
Just to get a second glance  
From a girl like you

I remember when we first met  
5 A.M. at the manzil room  
Everybody turned their head  
Every eye was set on you

Mama always told me about them evil women  
She always had plenty to say  
They're gonna break your heart and leave you there cryin'  
So boy you better walk away  
From a girl like you

How can anybody say it's wrong  
When it feels so good  
Ain't nobody made me feel the way that you do

All those lonely boys in the alley  
Thinkin' they got half a chance  
There's not a lot they wouldn't do for you baby  
Just to get a second glance  
From a girl like you...
