

# I Got Dreams

Steve Wariner

Go ahead and break my heart, just see if I care  
I ain't gonna fall apart girl, just 'cause you're not there  
Even when the going starts to get a little rough  
Gonna keep on trying hard, I'm never giving up

I got dreams to get me through the night  
Say you don't love me, one of these days you might  
I got dreams that keep me holding on  
Till you come running back where you belong

When I think that things have got as bad as they can be  
All I do is close my eyes and you're right here with me  
Gonna take a lot of hurt to throw me off this track  
I know everything will be alright when you come back

I got dreams to get me through the night  
Say you don't love me, one of these days you might  
I got dreams that keep me holding on  
Till you come running back where you belong

Gonna take a lot of hurt to throw me off this track  
I know everything will be alright when you come back

I got dreams to get me through this night  
Say you don't love me, one of these days you might  
I got dreams that keep me holding on  
Till you come running back where you belong

I got dreams  
I got dreams  
I got dreams  
...
