

# I've Been In That Movie

Steve Wariner

Somewhere in Dallas she is breaking someone's heart  
The way that she broke mine in two  
Somewhere tonight there is a man down on his knees  
And he don't know what to do.

I've been in that movie I've been in that song  
I was the one who was so weak when she was the one so strong  
I've been the fool who was helpless just trying to hang on  
I've been in that movie, I've been in that song.

I know he feels just like the world has walked away  
And left him standing there so cold  
She can warm his heart or turn him into a kid  
Or make him feel so damn old.

I've been in that movie I've been in that song  
I was the one who was so weak when she was the one so strong  
I've been the fool who was helpless just trying to hang on  
I've been in that movie, I've been in that song.

She's got the power anyone can tell  
She's got him walking around under her spell.

I've been in that movie I've been in that song  
I was the one who was so weak when she was the one so strong  
I've been the fool who was helpless just trying to hang on  
I've been in that movie, I've been in that song.

I've been in that movie, I've been in that song.  
I've been in that movie, I've been in that song.  
I've been in that movie, I've been in that song.  
I've been in that movie, I've been in that song.  
I've been in that movie, I've been in that song...
