

## Leave Him Out Of This

Steve Wariner

We're here in the dark alone - the three of us again  
You and me are lying here with your memory of him  
You say I've lost my mind but you say that every time  
It's more than jealousy  
I feel you holding him just as tight as me

I beg you just one time  
Leave him out of this  
Don't throw it all away for somebody that you miss  
Wish you could want my love as much as you want his  
Make love to me tonight and leave him out of this

I reach out to touch your face and pull you next to me  
We're as close as we can get with someone in between  
You say I'm dreaming this - you haven't seen him since  
He said his last goodbye  
But I know you're seeing him when you close your eyes

I beg you just one time  
Leave him out of this  
Don't throw it all away for somebody that you miss  
Wish you could want my love as much as you want his  
Make love to me tonight and leave him out of this
