

Precious Thing

Steve Wariner

[R]

Baby, your love is a precious thing
Like a newfound home, like a diamond ring
Nobody knows what tomorrow brings
I know your love is a precious thing

In the middle of hard times
Not to mention these good times
You make me feel like a man
Ain't never seen nothing but sunshine
You're the one I come home to
Girl, you know I still want to
When I'm gone, no matter how long
You're on my mind

[R]

Baby, your love is a precious thing
Like a newfound home, like a diamond ring
Nobody knows what tomorrow brings

I know your love is a precious thing

If our bills are paid on time
Or if we let 'em get way behind
I still feel like you and me
Are just sittin' on a gold mine
What more could I ask for
Honey I'll never be poor
'Cause I own the world
As long as you're here by my side

[R]

Baby, your love is a precious thing
Like a newfound home, like a diamond ring
Nobody knows what tomorrow brings
I know your love is a precious thing

I know your love is a precious thing
