

# Smoke From An Old Flame

Steve Wariner

Lately you say he's been callin'  
Saying that he wants you back  
I hope and pray you're not fallin'  
For that old line when it's an act

It's just smoke from an old flame  
And smoke disappears in the wind  
It's just smoke from an old flame  
He'll look in your eyes and tell you more lies  
And, girl, then he'll burn you again

I love you but I'd never keep you  
From leaving if you want to go  
It hurts me but, girl, I'll release you  
If that's what you want  
But I hope you know

He'll never change, his words are the same  
You've heard them all before  
He says he wants you  
You know it's not true  
So why go back for more
