

You Don't Have to Say

Stevie Brock

I ain't ever seen no one
Look as good as you
I ain't ever seen the sun
Shine as bright as you
I ain't ever had nobody
Do me like you do
And baby, that's true

So put your arms around me
And hold on tight
Cause baby, we're gonna fly
Tonight
And put that body on me
Tell me it's mine
Here we go, baby

You don't have to say
What you wanna do
I already know
Cause I wanna do it all too
You don't have to say
What you wanna feel
Cause I already know
Yeah, I know the feeling's real

Ooh, ooh, ooh...

I've fallen into love
Now you've fallen out that dress
Fall on top of me babe
And see what happens next
Can you feel my heart beat right through my chest? Ooh...

You don't have to say
What you wanna do
I already know
Cause I wanna do it all too
You don't have to say
What you wanna feel
Cause I already know
Yeah, I know the feeling's real

Ooh, ooh, ooh...
