

You got something about you girl
You bring the sunshine into my world
You came and turn my life around every day I wake up smiling
You know I'm so into you now
You know I'll never let you down
You know you've got me want around
Back to high school kid again
Oh, girl

The way you make me feel, I must be dreaming
To tell me that is real, cause girl you got me

Taking pictures in the photo booth
Riding rollercoasters next to you
Thinking about you gives me butterflies
Sneaking in your window late at night
Conversations till the morning light
Something about you takes me back in time
Girl, I'm feeling younger than I've ever been
You've got me feeling 17
You've got me feeling 17

I feel sparks every time we touch
I know it's more than just a crush
I swear you got me another sound
Feeling like it's my first-time girl
I've [?] myself when you with me
I think sometimes I [?] dream
I swear you got me feeling like updating the [?]

The way you make me feel, I must be dreaming
To tell me that is real, cause girl you got me

Taking pictures in the photo booth
Riding rollercoasters next to you
Thinking about you gives me butterflies
Sneaking in your window late at night
Conversations till the morning light
Something about you takes me back in time
Girl, I'm feeling younger than I've ever been
You've got me feeling 17

Baby, you make me remember how it feels to be young again
Cause those days we grow forever
But it's happening again
Everything we've been together
There's a little kid inside of me
So, let's make new memories

Taking pictures in the photo booth
Riding rollercoasters next to you
Thinking about you gives me butterflies
Sneaking in your window late at night
Conversations till the morning light
Something about you takes me back in time
Girl, I'm feeling younger than I've ever been
You've got me feeling 17
