

Angels

Stevie Hoang

Up in the spotlight
I see you there
Baby, you caught my eye

One in a million
Watching you move, you got me hypnotized
There's just one thing I got on my mind
Can I take you home with me tonight?

I just wanna, I just wanna know your name
I ain't tryna, I ain't tryna play no games
Girl, your body has got me impressed
Got me thinkin' what's under that dress

Girl, you gotta, girl, you gotta understand
I ain't tryna, I ain't tryna be your man
Baby, all of the things that they do
We can keep it between me and you

So tell me what's on your mind?
Girl, can I get the green light?

Let me let me take you take you so high
We can see the angels up in the sky
Let me let me take you take you so high
We can see the angels up in the sky

Just let us in, holding you close
Hands running up your thighs

Pushing up on me, I'm getting hot
Baby, so don't be shy

Girl, you know it's over when I take you home
A couple more shots, we'll be ready to go
Girl, let me know if you're ready to ride
We'll go from 0 right to 69

I just wanna, I just wanna know your name
I ain't tryna, I ain't tryna play no games
There's so many things I can show ya
Are you down for the kama sutra?

Girl, you gotta, girl, you gotta understand
I ain't tryna, I ain't tryna be your man
Baby, all of the things that we do
We can keep it between me and you

So tell me what's on your mind?
Girl, can I get the green light?

Let me let me take you take you so high
We can see the angels up in the sky
Let me let me take you take you so high
We can see the angels up in the sky
