

Never Change

Stevie Hoang

Girl there ain't no doubt about it
Ain't even gotta think it through
I've done all the searching I need
And no one comes close to you
So I be making this official
And you could let the whole world know
But still there's just a couple things
That I gotta know for sure

Will you still be there?
Through the rain and storms
Be there if I last at all
Will you still be there?
And be all that I need through the good and the bad
Will you still be there?
When the spark light fades
Be there when you don't call my name
Will you still be there?
All I hear from you is baby

Promise that you'll never change
The way that you touch me
Promise that you'll never change
The way that you love me
Promise that you'll never change
The way that you kiss me
All I do each night is pray
That forever from this day
Promise that you'll never change

I've been drinking nothing
So I know my mind is clear
Don't wanna put no pressure on you
So tell me if I'm being fair
'Cause when I look around all I see
So many people breaking up
Excuse me but I gotta ask
Are you in it for the long run?

Will you still be there?
Through the rain and storms
Be there if I last at all
Will you still be there?
And be all that I need through the good and the bad
Will you still be there?
When the spark light fades

Be there when you don't call my name
Will you still be there?
All I hear from you is baby

Promise that you'll never change
The way that you touch me
Promise that you'll never change
The way that you love me
Promise that you'll never change
The way that you kiss me

All I do each night is pray
That forever from this day
Promise that you'll never change

If we only had each other would it be enough?
If I last at all tomorrow would you show me love?
If we stay together would you be the one I trust?
Shorty promise that you'll never break my heart

If we only had each other would it be enough?
If I last at all tomorrow would you show me love?
If we stay together would you be the one I trust?
Shorty promise that you'll never break my heart

Promise that you'll never change
The way that you touch me
Promise that you'll never change
The way that you love me
Promise that you'll never change
The way that you kiss me
All I do each night is pray
That forever from this day

Promise that you'll never change
The way that you touch me
Promise that you'll never change
The way that you love me
Promise that you'll never change
The way that you kiss me
All I do each night is pray
That forever from this day
Promise that you'll never change
