

One Last Time

Stevie Hoang

Tell me do I ever cross your mind
When you're feeling lonely do you think about the time
When I'm deep in your na na na, touching your na na na
I'll be what you need tonight

Oh yeaaa oohh
Shawty got a man but you know that it's turning me on
Oh yeaaa oohh
Every time I hear her say

Boy I love it how you used to touch me
Show me how you want me
Give it to me one last time
(I love it) No one can do me
(I love it) The way you do me
You should give it to me one last time
Let me give it to you

Come baby come lemme give you some, some
Come baby come lemme give you some
Come baby come lemme give you some, some
Come baby come lemme give you some

He can give you what you need
Got you tossing, turning every night between the sheets
Cos can nobody do you, do you like me
I know how you like it, like it freaky
Let's do it how we used to do it baby
All night when you were mine

Oh yeaaa oohh
Shawty got a man but you know that it's turning me on
Oh yeaaa oohh
Every time I hear her say

I love it how you used to touch me
Show me how you want me
Give it to me one last time
(I love it) No one can do me
(I love it) The way you do me
You should give it to me one last time
Let me give it to you

Nobody ever do you like me baby
Cause I don't let you [?]
So show me how bad you want it baby

So don't move a fraction, you want some action
Smooth come at me like move like a Michael Jackson
Can I get you frisky, I know that you miss me
I know that you're thinking about the way that you kiss me

Girl you look so fine, you blow my mind like dynamite
Girl you look so fine, you blow my mind like dynamite

I love it how you used to touch me
Show me how you want me

Give it to me one last time
(I love it) No one can do me
(I love it) The way you do me
You should give it to me one last time
