

Superstar

Stevie Hoang

Shorty it's your night
Uuuh baby
Girl, you're shining bright
Aye girl, aye girl, aye girl
And we're looking so good
Aye girl, aye girl, aye girl
You're my superstar, superstar, superstar
Baby you should know
You're my superstar, superstar, superstar
Girl you steal the show
You're my superstar, superstar, superstar
The baddest thing around
You're my superstar, superstar, superstar
Tonight it's going down
Girl I know that you've been stuck up in the house now for so long
And I want you to know that I appreciate the things you do
And I know that it's been more than just a minute since we had a good time
So put your best dress on baby 'cause we're stepping out tonight
And it's gonna be spotlights on you
Tonight, girl you're so fine and I'm so proud to be with you tonight
This is your night, your time to shine
I'm rolling up the red carpet for you 'cause..
You're my superstar, superstar, superstar
Baby you should know
You're my superstar, superstar, superstar
Girl you steal the show
You're my superstar, superstar, superstar
The baddest thing around
You're my superstar, superstar, superstar
Tonight it's going down
Girl tonight I'm giving you my undivided attention
'Cause you're the leading lady and I'mma be your entourage
And you know that girl to please you is my only intention

And you ain't gotta worry 'bout a thing 'cause I got you
And it's gonna be spotlights on you
Tonight, girl you're so fine and I'm so proud to be with you tonight
This is your night, your time to shine
I'm rolling up the red carpet for you 'cause..
You're my superstar, superstar, superstar
Baby you should know
You're my superstar, superstar, superstar
Girl you steal the show
You're my superstar, superstar, superstar
The baddest thing around
You're my superstar, superstar, superstar
