

The Way That I Loved You

Stevie Hoang

Whooooa, yeah yeah yeah yeah
Whooooa, yeah

I'm doing better now but still I find it hard to trust (like the way that I used to)
And everyone I'm with, I just can't seem to open up (like the way that I used to)
Cause there's something, that's been broken, deep inside me and I'm never gonna be the same
Now I'm stronger and I'm wiser, but I'm half the man I used to be

Even though she gives me everything
I know things will never be the same
Cause I'm never gonna love again
The way that I loved you
I ain't gonna make the same mistake
A part of me is never gonna be the same
That's why I'm never gonna love again
The way that I loved you

My friends are telling me that I don't even act the same (like the way that I used to)
I made a promise that I'll never open up again (like the way that I used to)
Now I'm reckless like I got nothing else to lose
And my heart is just so cold and it's because of you
Yeah I'm stronger and I'm wiser
But I'm half the man I used to be

Even though she gives me everything
I know things are never gonna be the same
Cause I'm never gonna love again
The way that I loved you
I ain't gonna make the same mistake
Part of me is never gonna be the same
That's why I'm never gonna love again
The way that I loved you

I'll never do for her, the things that I did for you
The boy you knew is gone forever
Whooa, yeah

Even though she gives me everything
I know things are never gonna be the same
Cause I'm never gonna love again
The way that I loved you
I ain't gonna make the same mistake
Part of me is never gonna be the same
That's why I'm never gonna love again
The way that I loved you

Even though she gives me everything
I know things are never gonna be the same
Cause I'm never gonna love again
The way that I loved you
I ain't gonna make the same mistake
A part of me is never gonna be the same
That's why I'm never gonna love again

The way that I loved you
