

White Dress

Stevie Hoang

Always thought it would be you
Always thought it would be you

Ain't funny how life don't always go your way
And it's time to move on when situation change
Even though it's hard to let it go
You know you're better off being with someone else, yeah

So here I am on my wedding day
I fixed my tie and I'm on my way to the church where my bride awaits
And that's when it hit me
I'm so far from where I thought I'd be
Whatever happened to you and me
And I just can't believe it

Always thought it would be you
Standing there in that white dress
Always thought it would be you
Sleeping beside me in my bed
Always thought it would be you
Spending the Christmas and holidays
But it don't always end like that
Like the way you want it to
Always thought it would be you
Always thought it would be you, you, you, you

Maybe if we was in another time and place
Thing would different girl, we could have gone all the way
What if we gave up to easily and never got to see what we could have been, b
aby

So here I am walking down the aisle, and I have seen everybody smile
I catch my breath as I take my vow and that's when it hit me
Cause isn't what it's supposed to be this way
Cause when I look up and I see her face
I can't believe it

Always thought it would be you
Standing there in that white dress
Always thought it would be you
Sleeping beside me in my bed
Always thought it would be you
Spending the Christmas and holidays
But it don't always end like that
Like the way you want it to
Always thought it would be you

It's getting harder baby to believe
That baby we're just wasn't meant to be
But in this crazy world girl life goes on
But else I'm hearing the wedding song

Always thought it would be you
Standing there in that white dress
Always thought it would be you
Sleeping beside me in my bed
Always thought it would be you

Spending the Christmas and holidays
But it don't always end like that
Like the way you want it to
Always thought it would be you

Always thought it would be you
Standing there in that white dress
Always thought it would be you
Sleeping beside me in my bed
Always thought it would be you
Spending the Christmas and holidays
But it don't always end like that
Like the way you want it to
Always thought it would be you
