

## Come On (Part III)

Stevie Ray Vaughan

People talkin' but they just don't know  
What's in my heart and why I love you so  
I love you baby like a miner loves gold  
Come on baby, let the good times roll

Let the good times roll, come on it soothes my soul  
Oh, let the good times roll, come on, come on, come on

A lot of people live in make-believe  
They keep a lot of dirt up their sleeve  
My love, baby ain't the kind to fold  
Come one baby, let the good times roll

Let the good times roll, come on and let it roll  
Ah yeah, let it roll, come on, let it roll

Our lovin's nice if it's understood  
It's even nicer when you feel so good  
You got me flippin' like a flag on a pole  
Come on sugar, let the good times roll

Oh, let the good times roll, come on let it roll, come on, come  
on  
Come on, come on, let it roll
