

# In Your Corner

Stevie Wonder

I hear tell there's big fun tonight  
On the corner of Main and Dog-Meat-Bite  
Friday midnights would not be right  
Without Redd's hot party and a nasty fight

But I'll be in your corner  
I'll be in your corner, if they do  
I'll be in your corner  
I'll be in your corner, if they do

You can't renege cause it's going to be alive  
Fine women, lots of liquor and stuff for your mind  
Now where we're going they don't like your kind  
But they'll cool out when you tell them you're a friend of mine

'Cause I'll be in your corner  
I'll be in your corner, if they do  
I'll be in your corner  
I'll be in your corner, if they do

You can't tell your pa and mama  
Where we're going going till after we've been there  
'Cause that might make their poor heads worry  
And worrying can cause grey hair  
And one thing might lead to another  
And if there's any trouble they'll blame it on me

I think we just might have two to go  
The pretty looking over here from the middle of the floor  
We'll make a b-line to Hotel La Sin  
Where you'll do the talking to get us in

And I'll be in your corner  
I'll be in your corner, if they do

We shoulda been long gone 'cause this place is hot  
'Cause in the corner there are two brothers that are undercover cops  
If they stop us for questioning mum is the word  
'Cause a question not answered is an answer not heard

And I'll be in your corner  
I'll be in your corner, if they do  
I'll be in your corner  
I'll be in your corner, if they do

You can't tell your pa and mama  
Where we're going going till after we've been there  
'Cause that might make their poor heads worry  
And worrying can cause grey hair  
And one thing might lead to another  
And if there's any trouble they'll blame it on me

[Repeat]
