

True Love

Stevie Wonder

True love
Why'd you take so long
Every time I thought I found you
I was oh so wrong

True love
Were you playing with my heart
Or me not trying to feel that
They weren't it from the start

I'd say yes I found you
And think maybe so
I'd say here's my love true
And feel are you sure
But love is that feeling
Sharing no room with doubt
For I knew you were the key to my heart

Oh sweet love
Never go away
Let our love have us forever
To prove why we can't stay

True love
Are you saying touché
Let us live as perfect lovers
With a promise for always

Let us live as perfect lovers
With a promise for always
