

Eggshells

Stillwell

They tell me to watch my mouth
They tell me don't serve the drink
They tell me to serve the dream, it's never enough to keep me in sync
They tell me to mind my manners
They tell me behave yourself
They tell me to camouflage and if they're around, just stay in self

All of a sudden, I was given a subtle warning
To keep me in line with everyone
Then all of a sudden, I lost all control
Forever reminding I want more

Watch your step now
Don't raise hell
Be careful, you're walking on eggshells
Watch your step now
Don't raise hell
Be careful, you're walking on eggshells

Don't wanna be singled out
Don't wanna be left to blame
Don't wanna be ostracized and dragged into court for losing the game
Better just stay in the shadows
Better just keep the peace
Gonna just sit so silent, everybody will feign disease

All of a sudden, I was given a final warning
To keep me in line with everyone
Then all of a sudden, I lost all self control
Forever reminding that I want more

Watch your step now
Don't raise hell
Be careful, you're walking on eggshells
Watch your step now
Don't raise hell
Be careful, you're walking on eggshells

Don't talk back
Don't look left
Don't look right
Don't do that
Don't say this
Don't say that
Don't listen
Don't play back

Don't give me a reason
No, don't commit treason
You must not complain and you must share our pain

Keep on walkin', keep on walkin', keep on walkin', keep on walkin'

Watch your step now
Don't raise hell
Be careful, you're walking on eggshells
Watch your step now
Don't raise hell
Be careful, you're walking on eggshells

Watch your step now
Don't raise hell
Walking on eggshells
Watch your step now
Don't raise hell
Walking on eggshells
