

An Illusion

Stiltskin

I guess I could if I wanted
I guess I could if I wanted
I guess I could if I wanted

I don't mind if it's all an illusion
Nothing really there
I don't mind if it's all lost in sandstone
Or riding on the air

In the night I know that it's true
In the night I know that it's true
In the day I get confused
But in the night I know that it's true

I guess I could if I wanted
I guess I could if I wanted
I guess I could if I wanted

I don't mind if I lose all you gave me
You'd never know
I don't mind if you stay on the outside
Nothing here to show

In the night I know that it's true
In the night I know that it's true
In the day I get confused
But in the night I know that it's true
