

# So This Is Goodbye

Stina Nordenstam

So this is goodbye  
So this is how you say it  
These are the words  
It's the voice you're using  
It's the picture you've seen

So this is goodbye  
So this is how you say it  
This is the time it takes you  
It didn't take you a lot now did it  
It didn't hurt you a lot now did it

So this is good bye  
So this is how you spell it  
Where you place it in your mouth  
What happens if I didn't hear you  
What happens if it wasn't serious

Well I was around  
Maybe it was you I came to see  
Maybe it was you who invited me  
I remember your eyes were on me  
I remember your eyes were on me

Goodbye
