Bore Me

Stone Gossard

Just passed too bizarre The organ grinder quips Locked inside a barricade How could you get in? The admiral checks his thieves To see what they'd done wrong Wrapped it up in silly paper Tacked it to the wall He bore me... All could see... He bore me... He tries to get his armies outside the trail He knows his better part is outside of bail He found me... All could see... He bore me... Ten pounds, ten pounds Ten pounds, ten pounds The admiral checks the crowd To see if they would mind He knew it wasn't instigated By his little frog The rabbit chased the pig Around their parking lot Pony tail between his knees Customary sot He bore me... All could see... He found me... All could see... He bore me...
