

Bye Bye Badman

The Stone Roses

D

Soak me to my skin
Will you drown me in your sea submission

G C D

Ends and I begin

Choke me smoke the air
In this citrus sucking sunshine I don't
Care you're not all there

G Emi

Every backbone and heart you break

D

Will still come back for more

G C D

Submission ends it all

D G

R: Here he come

D G

Got no question got no love

D

I'm throwing stones at you man

G

I want you black and blue and

D

I'm gonna make you bleed

G Emi

Gonna bring you down to your knees

G D

Bye bye badman ooh bye bye

Choke me smoke the air
In this citrus sucking sunshine I don't
Care you're not all there

You've been bought and paid
You're a whore and a slave
Your dock's not a holy shrine
Come taste the end you're mine

R: Here he come...

G Emi

I've got bad intention

C

I intend to

Ami D

Knock you down
These stones I throw
Oh these French kisses
Are the only way I've found

I've got bad intention
I intend to knock you down
These stones I throw
Oh these French kisses

Are the only way I've found
