## **Don't Stop**

## The Stone Roses

Don't stop, isn't it funny how you shine? Don't stop, isn't it funny how you shine?

Here the sea spray give, I was with her We're under the ship so get me over Now, that was me, listen Now, she fishes, now, listen

There was no one out there we used There is the news for me useless Now, so much waste How we'll be teased

Don't stop, isn't it funny how you shine? Don't stop, isn't it funny how you shine?

Oh, won't you just ask me, you're an imbecile What's the matter for everyone I feel Pain, blues singer
He's playing just a guitar from the top

I wake, I still look I feel loose We're all here now, who's the first Ease into my heart He must be one of us

Don't stop, isn't it funny how you shine? Don't stop, isn't it funny how you shine?
