

Still Awake

Stonewall Jackson

It's three a.m. or after and I'm still awake
I thought I'd soon forget you when you went away
I wonder how much longer a man can live this way
It's three a.m. or after and I'm still awake

Last night my friends came over and they spoke of you
But that party didn't turn out like I meant it to
I found myself a corner until they went away
They've all been gone for hours and I'm still awake

Too late I'd seen how much you really meant to me
I took your love for granted so you set me free
My world has built of memories of my mistakes
At three a.m. or after here I am awake

Last night my friends came over...
