

# Sweetheart Of The Town

Stonewall Jackson

Your secret love has known to everybody in this town  
No need to try you can't deny the talk that's going round  
You'll meet in secret places when you think no one's around  
People calling you the sweetheart of the town  
Would you rather have the name sweetheart instead of wife  
Oh why not be content to tread the wrong way for the right  
The kind of life you're living now I just can't stay around  
While they're calling you the sweetheart of the town

Infatuation's not the kind of love that we once knew  
But that's the kind you hope for him the kind he's giving you  
I'm like a ballhead on a string that you can pull around  
While they're calling you the sweetheart of the town  
Would you rather have...  
While they're calling you the sweetheart of the town
