

# The Sadness In a Song

Stonewall Jackson

(Oh the sadness in a song)  
In a crowded honky tonk music starts to play  
Happy couples all around dance the night away  
At a table in a corner I sit all alone every song's the sad one  
since my baby's gone

Oh the sadness in a song when the only one you love has gone  
Anyway they play the tune it comes out loneliness and blue  
When the one you love has gone oh the sadness in a song

While a lonesome city sleeps to pass away the time  
By myself I walk the streets with a troubled mind  
Up ahead the neon sign it says All night Cafe

Pour a cup of coffee I can hear the jukebox play  
Oh the sadness in a song when the only one you love has gone  
No matter how they play the tune it comes out loneliness and blue  
When the one you love has gone oh the sadness in a song oh the  
sadness in a song
