

## Message in a Bottle

Stoney LaRue

She left a message in a bottle  
On the table by the door  
I know she knew I'd find it there  
When I woke up one [?] morn'  
And now I know it's high time  
That I turn my life around  
Her message in a bottle  
Was to lay the bottle down

We got a little too crazy last night  
And somehow all our good times ended up in a fight  
And God knows, I'd never hurt her, and if I did I can't recall  
So I know she's got good reason to give me my wake-up call

She left a message in a bottle  
On the table by the door  
I know she knew I'd find it there  
When I woke up one [?] morn'  
And now I know it's high time  
That I turn my life around  
Her message in a bottle  
Was to lay the bottle down

And now I know it's high time  
That I turn my life around  
The message in a bottle  
Was to lay the bottle down  
Yeah, the message in a bottle  
Was to lay the bottle down
