

## Travelin' Kind

Stoney LaRue

You never seem to look up anymore.  
Even at the sound of a slammin' door.  
You never like to weather the storm.  
You never walked with a travelin' kind.  
You never walked with a travelin' kind.  
If the skies gonna fall, let it fall on me.

You can take your shelter where your shelter be.  
I'll stand out in the open where I can see.  
You never walked with a travelin' kind, babe.  
You never walked with a travelin' kind.

You talk about your point of view,  
When you never wore out your walkin' shoes.  
Maybe there's no place for you, but your side of town.

This whole world it's got corners babe.  
Just drive it on out on this interstate.  
You never held no chance to take.

You never walked with a travelin' kind.  
You never walked with a travelin' kind.

The apple doesn't fall too far from the tree.  
But the apple never swam in the deep blue sea.  
Yeah, maybe your just not a lot like me.  
You never walked with a travelin' kind babe.  
You never walked with a travelin' kind.
