

# Servants of Metal

Stormwarrior

See our armies stand, together we defend  
Unbreakable and strong, the shores where we belong  
Now the time hath come, for us to carry on  
The legacy of yore, can you hear the thunder roar

Into the fyre and into the storm  
Out of steele we were born

Warrior - stand thy ground tonight  
Warrior - raise our banners high  
Warrior - hear my battle-cry, I am not afraid to die  
Warrior - see thy brothers fight  
Warrior - swear the oath tonight  
Warrior - leave thy battle-cry, I am not afraid to die

We're servants of metal, servants of steele

Faithful unto death, I feel the ancient breath  
Victories long gone, victories to come  
I take the oath of bloode, I feed the flame of gods  
The iron voices scream, and never shalt thou kneel

Into the fyre and into the storm  
Out of steele we were born

Warrior - stand thy ground tonight  
Warrior - raise our banners high  
Warrior - hear my battle-cry, I am not afraid to die  
Warrior - see thy brothers fight  
Warrior - swear the oath tonight  
Warrior - leave thy battle-cry, I am not afraid to die!

We will rise like a thunderstorm tonight  
Smash their ground with pride  
Hail the gods of war and raise the blazon high  
We will fight together again, in union we stand  
Vengeance will be on our side

Warrior - stand thy ground tonight  
Warrior - raise our banners high  
Warrior - hear my battle-cry, I am not afraid to die  
Warrior - see thy brothers fight  
Warrior - swear the oath tonight  
Warrior - leave thy battle-cry, I am not afraid to die

We're  
Servants of metal  
Servants of steele
