

Holy Land

Stormwind

See the
holy land
beyond the judean dessert
the romans conquer our land
but never our last fortress

a fortress built to stand
above the dead sea.
They took our promised land
but we died...
Nobly and free!!!

Ooh holy land!
We follow your spell!
Our hands are free!
We choose death rather than slavery!

A stronghold for a king
against any enemy who might wage war
ten men will slay us all
to keep our spirit alive!

Brave and loyal followers!
Holy land!
We can die nobly and as free men!
Holy land!
