Terrified

Story of the Year

Here in this town, safe and guarded We call it home, a feeling that we share Now leave this place, clinging to hope In this midnight prayer If we hold our breath, float beyond this We'll be reborn, I will carry us home

Are you still alive? Are you scared inside? Providence is blind when you're terrified Are you still alive? Are you scared inside? When we've reached the end of the road I will carry us home

Oh no, if all our sin was only a hope
And meaningless and true
Now will I expire holding the world
In safety for you
If we make it through and I can save you
With this heart I know, I will carry us home

Are you still alive? Are you scared inside?
Providence is blind when you're terrified
Are you still alive? Are you scared inside?
When we've reached the end of the road
(Reached the end of the road)
I will carry us home

And now I'm so far away from you Will I be making any difference After leaving you all alone?
And now I'm so far away from home

Can I justify my actions
After leaving you here in this town?
Safe and guarded, we call it home
A feeling that we shared

Are you still alive? Are you scared inside? Providence is blind when you're terrified Are you still alive? If you're scared inside (I will carry you home) I will carry us home

Are you still alive? Are you scared inside? Providence is blind when you're terrified Are you still alive? Are you scared inside? When we've reached the end of the road (Reached the end of the road)

When we've reached the end of the road (Reached the end of the road) I will carry us home, carry us home
