

# Far Below Me Now

Stradlin Izzy

As I sit inside this chair  
Looking out the window here  
I can see that it's all far below me now  
It's so far below me now  
Just a short elevator down

And I really do not care  
Looking out the window here  
'Cause I see that it's so far below me now  
And I see you looking there  
Taking in the big view here  
45 floors are so far below us now

Well, it's so far below me now  
It's just a short elevator down  
And as quickly as you go up  
It just comes back down  
I can see that it's so far below me now

Yes, those city lights they glare  
Shining through the window here  
I can see the traffic far below me now  
And the colors are so red  
In the headlights sit and stare  
I can see that it's all far below me now

It's so far below me now  
Just a short elevator down  
And as quickly it goes up

It just comes back down  
I can see that it's so far below me now

It's so far below me now  
It's so far below me now  
It's so far below me now  
It is so far below me
