

## Gotta Say

Stradlin Izzy

Got another phone call  
Tellin me the words  
Got another story for me to learn  
Say the truth out walkin  
Walked right out my door,  
I didn't try to follow,  
cause I knew the score

Tell me what you gotta say  
I see through you anyway  
I think you have underestimated me  
And tell me what you gotta say  
I see through it anyway  
I think you have once again

... Never mind the weather, never mind your head  
I know why you're callin on me here today  
-things are goin fine now  
Yeah all's well I'd say  
The one thing that troubles me is  
when ya call my name

Tell me what you gotta say  
I see through you anyway  
I think you have underestimated me  
And tell me what you gotta say  
I see through it anyway  
I think you have once again
