

Here Before You

Stradlin Izzy

Yeah I was here before you
No matter what you do
You think about that first
Yeah I was here before you

All wound up over nothin at all
-you gotta reel yourself back in
You ain't first but ya sure ain't last,
And that's a call that I have seen
You're up front in the second heat,
Ya got your head lined up in check

They're getting ready ta start it
They're getting ready ta go

Yeah I was here before you
No matter what you do
You think about that first
Yeah I was here before you

Big talk don't mean a lot
When the final flag comes down
Yeah who's who at the finish line
I'm gonna wear that great big crown
Ya talking bomb, but I'll wait and see
Who's gonna be there, in the end
I'm already started
I'm fired up to go
