## **Here Before You**

Stradlin Izzy

Yeah I was here before you No matter what you do You think about that first Yeah I was here before you

All wound up over nothin at all -you gotta reel yourself back in You ain't first but ya sure ain't last, And that's a call that I have seen You're up front in the second heat, Ya got your head lined up in check

They're getting ready ta start it They're getting ready ta go

Yeah I was here before you No matter what you do You think about that first Yeah I was here before you

Big talk don't mean a lot When the final flag comes down Yeah who's who at the finish line I'm gonna wear that great big crown Ya talking bomb, but I'll wait and see Who's gonna be there, in the end I'm already started I'm fired up to go
