

# Laughing In The Rearview

## Straight Line Stitch

You never say what you mean, mean what you say

Pick up the pieces  
And heal the pain of your cruelty  
Maybe one day you'll be able to say  
That you're truly free but there's no guarantee

It's always the same everywhere you go  
Welcome to the slide-show  
Right up front for the whole world to see your display  
You will never get away

You never say what you mean, mean what you say  
I'll blow you away, blow you away  
Shot down in a blaze now you're lost  
Without a trace, without a trace

But don't get caught  
Out by the undertow, out by the undertow  
Because today is the day that you'll never  
Never escape, never escape

I hope you see my face as clear as day  
And it continues to haunt you  
Maybe someday you'll be able to breakthrough  
But you don't have that kind of virtue

It's always the same every time I move  
Like you got something to prove, something to prove  
You think I'd lose my edge over the third degree  
Excuse me if I disagree

You never say what you mean, mean what you say  
I'll blow you away, blow you away  
Shot down in a blaze now you're lost  
Without a trace, without a trace

But don't get caught  
Out by the undertow, out by the undertow  
Because today is the day that you'll never  
Never escape, never escape

You'll never escape  
You turned your back on me  
You turned your back on me

You'll never, never escape  
You'll never, never escape  
You'll never, never escape  
You'll never, never escape
