

Goodnight L.a.

Strangeways

I'm standing here, all by myself
Livin' dreams, that could never come true
When I look, yeah, out the window
I see her, but I'm thinkin' of you

The man on tv looks by me
The ladies do the same
I look to the girl on the billboard
Imagine her calling my name

Goodnight L.A.
Where are you tonight
Goodnight L.A.
On fire, the streets, the neon light
Goodnight L.A.

I'm a dreamer, some people say
No use in trying, Nothin' happens anyway
You're an angel, only a memory
On faded magazine pages, no place, no place I'd rather be

And the man on tv still looks by me
The ladies do the same
I look to the girl on the billboard
Imagine her calling my name

Goodnight L.A.
Where are you tonight
Goodnight L.A.
On fire, the streets, the neon light
Goodnight L.A.

Goodnight L.A.
I wish I was with you tonight
Goodnight L.A.
On fire, the streets, the neon light
Goodnight L.A.
Goodnight
Goodnight
Goodnight
