

Into The Night

Strangeways

Over now, you tell me it's over now
I just don't understand where we went wrong
So tell me where our love has gone
Holdin' on, you know that I'm holdin' on
If I've ever let you down just tell me now
So I can make it right somehow

If you think it over, those were the best years of our lives
So when you say you're leaving, all I do is wonder why

'Cause we've got the time (time), to make it last
Remember the good life, forget the past
Won't you try (try), to let me be the one
'Cause you know that I'll never run

Set me free, why won't you set me free
From all this loneliness I feel inside
Don't you know we've still got time
Over now, you tell me it's over now
I just don't understand why you feel this way
Don't let go, it's not too late

If you think it over, those were the best years of our lives
So when you say you're leavin', all I do is wonder why

'Cause we've got the time (time), to make it last
Remember the good life, forget the past
Won't you try (try), to let me be the one
'Cause you know that I'll never run
Into the night

Into the night

If you think it over, those were the best years of our lives
So when you say you're leaving, all I do is wonder why

'Cause we've got the time (time), to make it last
Remember the good life, forget the past
Won't you try (try), to let me be the one
'Cause you know that I'll never run
Into the night

I'll never run into the night
Run into the night
