## Lord of the Wasteland

## **Stratovarius**

I'm going back through time Before the war this crime Who would have believed That they would do it One April morning Without a warning The sirens woke us up Two minutes to live we got

I'm dying I'm crying Still I'm the lord I'm fighting denying Still I'm the lord Of the wasteland

Now I'm alone here The last man on earth I'll be Walking through chaos land There's just black mist and sand

I'm dying I'm crying Still I'm the lord I'm fighting denying Still I'm the lord Of the wasteland
