

# Stand My Ground

Stratovarius

This is my way, these are my rules  
These are my rhymes, this is my song  
Don't take me for some bloody fool  
For I still dream, you can't hurt me, I'm strong

You can try to bring me down, to keep me down  
I will rise and I'll be fighting back  
There's no way you can break my will

My dreams are guiding my every step  
I have a destiny to fulfill

No one can bring me down  
I will defend my beliefs  
And I will stand my ground  
I need to see where it leads

No one can bring me down  
I will defend my beliefs  
And I will stand my ground  
I need to see where it leads

You can try to bring me down, to keep me down  
I will rise and I'll be fighting back  
There's no way you can break my will

My dreams are guiding my every step  
I have a destiny to fulfill

No one can bring me down  
I will defend my beliefs  
And I will stand my ground  
I need to see where it leads
